INTERIOR DESIGNER + ARCHITECT  
SJB

## BALANCING ACT

[ Waterloo ]

**SJB SENIOR INTERIOR DESIGNER** Charlotte Wilson clad an island bench in expressive stone and suspended slimline shelving above for this dramatic kitchen design where sleek appliances play a discreet supporting act. “We wanted a twist to the usual kitchen typology by opening up the joinery to create a social setting. Terrazzo wraps seamlessly from the floor to form the rear kitchen block, providing a simple backdrop to the rich green ‘artwork-like’ marble island. Suspended overhead shelving of fluted glass framed with iron bronze metal lends itself to a curated display. The appliances blend into the space, allowing the details to speak for themselves.” *What luxury items did you choose for this kitchen regardless of budget?* “We wanted the marble to be the hero in combination with the glass shelving. This creates a dramatic feature against a simple backdrop. In lieu of a splashback, we chose appliances to simplify the design, such as the induction cooktop with integrated downdraft which allowed this to happen. The beautiful iron bronze tapware was bespoke and we ensured the joinery had personalised moments such as integrated lighting and cutlery trays. [sjb.com.au](http://sjb.com.au)

**Joinery** Rear island bench in Italian terrazzo tiles with Calacatta marble aggregate from Surface Gallery. Appliances wall in custom white polyurethane by Intermain. Suspended overhead shelving with aluminium frame and fluted glass by Intermain.
